## Here’s How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

cycle.”

A preference will be given to existing organizations that serve Grant County students, provide career assessments and/or career resources to the Grant County community, provide evidence of partnerships with other service providers to increase reach, assist Grant County students with educational programs, facilitate Grant County residents in job shadowing, ww, and career preparation, assist schools in building bridges to businesses and locally created career pathways, and provide evidence of community and education pathways.

Ideally, organizations granted funding will meet one or more of those criteria, and those who work to help underprivileged students will also get priority.

Proposals will be solicited in mid-September through the end of October of each year. The CAPE II Career Exploration Grant Committee will review proposals during the first two weeks of November, meet for decision-making in mid-November, and award recipients by no later than the end of November annually.

To apply for the grant and to learn more, visit [www.Give-ToGrant.org/Grants](http://www.Give-ToGrant.org/Grants) or contact Meagan Mathias at 765-662-0065.
